

# BioCrop Opti<sup>ML</sup>

SPECIAL FORMULATION FOR CORN AND ONIONS.  
The fertiliser is a pre-formulated, high-quality nutrient solution containing all essential micronutrients and trace elements.

## SUPER ADJUVANTS

have been added to optimise both the absorption and effect of the added nutrients.

Pre-formulated, high-quality nutrient solution containing all essential micronutrients and trace elements. In addition, BioCrop Opti<sup>ML</sup> contains a smaller amount of nitrogen (N). Please refer to the declaration.

### USES

BioCrop Opti<sup>ML</sup> may be used in all crops as preventive treatment against the lack of micronutrients and trace elements. If there is suspicion or experience of manganese deficiency, the effect on manganese deficiency can be enhanced by adding additional manganese. We recommend mixing with an optional amount of BioMangan 180 NS or BioMangan 170 NS<sup>P</sup>. Alternatively, BioCrop Opti<sup>ML</sup> can be mixed with manganese sulphate.

Please note that we assume no liability for mixtures with other fertilisers or pesticides. Before mixing with one or more pesticides, it is recommended to make a smaller sample mixture. BioNutria Denmark assumes no liability for the effect of mixtures and guarantees only the content of BioCrop Opti<sup>ML</sup>.

### DOSAGE

The recommended dosage is 7.5–10 L/ha. The amount can be varied as needed and according to the consultant's recommenda-

tion. Mix BioCrop Opti<sup>ML</sup> with the amount of water needed. Because the product is absorbed through the leaves, good plant cover is important.

### HANDLING AND STORAGE

Warning. Keep BioCrop Opti<sup>ML</sup> out of the reach and sight of children. When handling, wear protective gloves and eye protection.

### DANGER

Contains: Boracid, Dinatriumtetraborat-Pentahydrat. H319 Causes serious eye irritation. H360FD May damage fertility. May damage the unborn child. H411 Toxic to aquatic life with long lasting effects. General: P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. Prevention: P201 Obtain special instructions before use. P280 Wear protective gloves/protective clothing/eye protection. Response: P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. P308 + P313 IF exposed or concerned: Get medical advice/attention. Storage: P405 Store locked up. Disposal: P501 Dispose of contents/container to an approved waste disposal plant.
