

BioCrop Opti^P

Special formulation with phosphorus.

SUPER ADJUVANTS

have been added to
optimise both the absorp-
tion and effect of the
added nutrients.

Pre-formulated, high-quality nutrient solution containing all essential micronutrients, trace elements and phosphorus. Please refer to the declaration.

USES

BioCrop Opti^P may be used in all crops as preventive treatment against nutrient deficiency. If there is suspicion or experience of manganese deficiency in the plants, the effect against manganese deficiency can be enhanced by adding additional manganese. We recommend mixing with an optional amount of BioMangan 180 NS or BioMangan 170 NS^P.

Alternatively, BioCrop Opti^P can be mixed with manganese sulphate. Please note that we assume no liability for mixtures with other fertilisers or pesticides. Before mixing with one or more pesticides, it is recommended to make a smaller sample mixture.

BioNutria Denmark assumes no liability for the effect of mixtures and guarantees only the content of BioCrop Opti^P.

APPLICATION

Apply BioCrop Opti^P in a mixture with 100–200 L of water per hectare. Because the product is absorbed through the leaves, it is beneficial to have good plant cover.

DOSAGE

Indicative dosage 7.5–10 L/ha. The quantity can be varied as needed. BioCrop

Opti^P is applied in any amount of water. Because the product is absorbed through the leaves, it is important to have good plant cover.

HANDLING AND STORAGE

Warning. Keep BioCrop Opti^P out of the reach and sight of children. When handling, wear protective gloves and eye protection.

DANGER

Contains: Mangan sulphate (monohydrate), Boracid, Dinatriumtetrahydroborat-Pentahydrat. H318 Causes serious eye damage. H360FD May damage fertility. May damage the unborn child. H411 Toxic to aquatic life with long lasting effects. General: P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. Prevention: P201 Obtain special instructions before use. P280 Wear protective gloves/protective clothing/eye protection. Response: P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Immediately call a POISON CENTER or doctor/physician. P308 + P313 IF exposed or concerned: Get medical advice/attention. Storage: P405 Store locked up. Disposal: P501 Dispose of contents/container to an approved waste disposal plant.
