

BioCopper 70

Effectively eliminates and prevents copper deficiency in any crop. Special formulation with a very high content of immediately plant-accessible copper and sulphur.

SUPER ADJUVANTS

have been added to optimise both the absorption and effect of the added nutrients.

APPLICATION

Use BioCopper 70 in all crops as preventive treatment against copper deficiency.

DOSAGE

The recommended dose is 1–2 L/ha. Mix BioCopper 70 with the amount of water needed.

Because the product is absorbed through the leaves, it is beneficial to have good plant cover.

Note that we assume no liability for any mixture with other fertilisers or pesticides. Before mixing with one or more pesticides, it is advisable to make a small test solution.

BioNutria Denmark assumes no liability for the effect of mixtures and guarantees only the content of BioCopper 70.

HANDLING AND STORAGE

Warning. Keep BioCopper 70 out of the reach and sight of children.

When handling, wear protective gloves and eye protection.

DANGER

Contains: Copper sulphate.

Hazard statements: H302 Harmful if swallowed. H318 Causes serious eye damage. H410 Very toxic to aquatic life with long lasting effects.
