

BioMagnesium 50

A high-quality magnesium solution formulated on the basis of immediately plant-accessible magnesium. Also contains sulphur.

Made of the absolute best raw materials and enriched with amide nitrogen, to increase absorption and thus improve the effect of the added nutrients.

BioMagnesium 50 can be mixed with most pesticides. Before mixing with one or more pesticides, it is advisable to make a small test solution.

BioNutria Denmark assumes no liability for the effect of mixtures and guarantees only the content of BioMagnesium 50.

DOSAGE

Use BioMagnesium 50 as needed. The recommended dose is 20 L/ha/application.

Note that we assume no liability for any mixture with other fertilisers or pesticides.

APPLICATION

Mix and apply BioMagnesium 50 with 100–200 L of water per hectare.

Because the product is absorbed through the leaves, it is beneficial to have good plant cover.

SUPER ADJUVANTS

have been added to optimise both the absorption and effect of the added nutrients.

HANDLING AND STORAGE

Warning. Keep BioMagnesium 50 out of the reach and sight of children. When handling, wear protective gloves and eye protection.

PRODUCT DECLARATION

	Gr. per. ltr.	Weight %
Total N	21,25	1,70
CO (NH ₂) ₂	21,25	1,70
Mg	52,13	4,17
S	68,63	5,49
Density		1,25
pH		5,32

PROBLEMS WITH HARD WATER

1 L BioCrop Opti^P per 100 L water effectively resolves the problem. Alternatively, you can add 0.2 L Bio pH Control per 100 L water to the spraying solution.

Quality does not cost – it pays!
