

Bio P11

Starter fertiliser for potatoes.

Pure phosphorus fertiliser for use when planting potatoes.

Bio P11 is used as starter fertiliser for potatoes. It is a pure phosphorus fertiliser for use when planting potatoes.

Bio P11 can be mixed with seed treatments. Note that it requires equipment that can withstand acidic fertiliser and low pH.

DOUSAGE

Mix and Bio P11 with liquid seed treatment and apply no more than 70 L/ha.

MIXTURES

Note that we assume no liability for any mixture with other fertilisers or pesticides. Before mixing with one or more pesticides, it is advisable to make a small test solution.

BioNutria Denmark will not be liable for the effect of mixtures and guarantees only the content of Bio P11.
