

BioNutria Molybdenum 120

Highly concentrated molybdenum fertiliser.

Effectively corrects and prevents molybdenum deficiency in all crops.

BioNutria Molybdenum 120 is an authorised non-organic product that can be used in organic farming in accordance with EU Regulation 848/2018.

BioNutria Molybdenum 120 effectively remedies molybdenum deficiency in all crops. BioNutria Molybdenum 120 is a highly concentrated molybdenum fertiliser made from the best raw materials.

DOSAGE

The recommended dosage is a maximum of 0.1 L/ha (2.47 acres), which may be repeated in the event of severe shortages and in molybdenum-intensive crops such as rapeseed and legumes.

Note that we assume no liability for any mixture with other fertilisers or pesticides. Before mixing with one or more pesticides, it is advisable to make a small test solution.

BioNutria Denmark will not be responsible for the effect of mixtures and guarantees only the content of BioNutria Molybdenum 120.

HANDLING AND STORAGE

BioNutria Molybdenum 120 must be stored in a frost-free environment and out of the reach of children.

When handling, you must wear protective gloves and eyewear.
