

BioNutria Cobalt 30

Highly concentrated cobalt fertilizer that effectively remedies and prevents cobalt deficiency. The cobalt is immediately plant-accessible and quickly absorbed by the plants.

BioNutria Cobalt 30 is an authorised non-organic product that can be used in organic farming in accordance with EU Regulation 848/2018.

BioNutria Cobalt 30 is used to ensure that neither domestic animals (primarily ruminants) nor tuber bacteria lack cobalt.

DOSAGE

We recommend fertilising all crops used for ruminants with 1 L BioNutria Cobalt 30 per hectare (2,47 acres).

Tuber bacteria

For plant species that have symbiosis with tuber bacteria, such as alfalfa, peas, clover, vetch, lupin, etc., apply 1 L/ha BioNutria Cobalt 30. At the same time, we recommend adding 0.1 litres of BioMo 120 / BioNutria Mo 120.

Note that we assume no liability for any mixture with other fertilisers or pesticides. Before mixing with one or more pesticides, it is advisable to make a small test solution.

BioNutria Denmark will not be responsible for the effect of mixtures and guarantees only the content of BioNutria Cobalt 30.

APPLICATION

Apply the fertilisers, for example, in combination with micronutrients from BioNutria and/or a nitrogen fertiliser with Bio NS 15-2 or Bio NS 15-2 Carbon. These combinations ensure the best and safest absorption of the nutrients.

HANDLING AND STORAGE

BioNutria Cobalt 30 must be stored in a frost-

free environment and out of the reach of children.

When handling, you must wear protective gloves and eyewear.

DANGER

Contains: Cobalt sulfate.

Hazard statements: H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H341 Suspected of causing genetic defects. H350i May cause cancer by inhalation. H360F May damage fertility. H410 Very toxic to aquatic life with long lasting effects.

Precautionary statements: General: P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children.

Prevention: P201 Obtain special instructions before use. P280 Wear protective gloves/protective clothing/eye protection.

Response: P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. P308 + P313 IF exposed or concerned: Get medical advice/attention.

Storage: P405 Store locked up.

Disposal: P501 Dispose of contents/container to an approved waste disposal plant.
