BioNutria
DANMARK

CLASSIC

The Scandinavian Way

The ultimate fertiliser concept

The Scandinavian Way Classic is formulated specially for climates characterised by a long growth season with mild winters, where the temperature often fluctuates between frost and thawing.

To emphasise the concept's quality, we guarantee our customers that their money will be refunded if they are not 100% satisfied after correct application.

Quality doesn't cost money - it pays!

RECOMMENDED APPLICATION OF ABOVE FERTILISERS:

Early spring ..... 200 kg (150 l) BioStart
May ..... 50 kg (35 l) BioCalcium
June ..... 50 kg (35 l) BioCalcium
August ..... 50 kg (35 l) BioCalcium

Season: (10 applications) ..... 40 kg (35 l) BioGolf NK 7-0-11+
..... 120 kg (100 l) BioStar Classic

Mid-/late September ..... 300 kg (250 l) BioGolf Vinter
Mid-/late October ..... 300 kg (250 l) BioGolf Vinter
November ..... 120 kg (110 l) Fusarium Inhibitor
December ..... 120 kg (110 l) Fusarium Inhibitor
January ..... 120 kg (110 l) Fusarium Inhibitor
February ..... 120 kg (110 l) Fusarium Inhibitor
March ..... 120 kg (110 l) Fusarium Inhibitor
